Friends:—

WE are pleased to send you this, our plain business Seed Catalogue for 1908 and while it is not as elaborate and fancy a catalogue as you may receive from some other Seedmen, we trust you will appreciate the fact that the money we save by issuing a plain, simple catalogue, instead of a high priced one, is practically money saved to our customers as we are able by saving this extra expense and also by having our office and other buildings on our seed farms and not having the heavy expenses some have to pay, to furnish the best of seeds at prices far below many Seedmen charge.

Some of the best Market Gardeners and Farmers in the country are our customers, and have been for years, which shows that our seeds and prices are satisfactory. If you have never tried our seeds; you may think our prices are so low that our seeds are not first-class, now if this is the case don't send us your entire order but give us a trial order and plant our seeds beside any seeds you are a mind to buy, even if you pay double the price, all we ask is a fair impartial trial.

We have an excellent reputation built up by over sixty years experience in the business.

We wish to thank our many friends and patrons for past favors and trust we shall continue to merit your confidence in the future.

Respectfully yours,

THOMAS GRISWOLD & CO.

January 15, 1908.

OFFICE OF

THOMAS GRISWOLD & CO.,

South Wethersfield, Conn.

TERMS.

We do principally a cash with order business and cannot allow credit to unknown parties without satisfactory references. Parties that are reliable and well known to us we are willing to accommodate by allowing limited credit. Outstanding bills are due June 1st, 1908. **A Discount of 10 per cent allowed for Cash Orders.**

How to send money.—Remit by Post Office or Express Money Order, Registered Mail or Bank Draft. Postage Stamps may be sent for small amounts. Personal Checks accepted from parties having established credit.

Post Office Money Order can be made payable at Wethersfield or South Wethersfield.

When Seeds are Wanted by Mail, postage must be added at the rate of 8 cents per pound for Seeds, (except flower seeds), 10 cents per quart for Corn and Onion Sets, and 15 cents per quart for Beans and Peas.

Bags, barrels, etc., free of charge. No charge for cartage. Purchasers pay express and freight charges unless otherwise agreed.

Shipping Instructions should accompany each order. If no such instructions are received we will ship by the best and cheapest route known to us.

After shipping in good order our responsibility ceases, claims for damages or miscarriage must be laid on the carriers.

Parties purchasing from us, and wishing references as to our business integrity are respectfully referred to R. G. Dun & Co's, and Bradstreet's Mercantile Agencies, also to our Postmaster, or Town Officers.

In common with other reliable seed houses, we sell our goods subject to the following disclaimer adopted by the American Seed Trade Association.

Disclaimer.—We give no warranty, express or implied as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

THOMAS GRISWOLD & CO.

GRISWOLD'S S E E D P A C K A G E

AN IDEAL PACKAGE of the best vegetable seeds put up to meet the requirements of parties that have private gardens and want the best, but not in large quantities, and perhaps are not familiar enough with the different varieties of seeds to make a first class selection. Let us select for you.

This package weighs over six pounds and contains best varieties of the following seeds, in ample quantities for large family gardens and we feel sure will give best of satisfaction.

Large packet, Table Beet	Large packet, Pie Pumpkin
“ “ Early Cabbage	“ “ Early Radish
“ “ Late Cabbage	“ “ Spinach
“ “ Table Carrot	“ “ Summer Squash
“ “ Celery	“ “ Winter Squash
“ “ Cucumber	“ “ Red Tomato
“ “ Lettuce	“ “ Turnip
“ “ Musk Melon	Extra large “ String Beans
“ “ Water Melon	“ “ “ Lima Beans
“ “ Red Onion	“ “ “ Early Corn
“ “ Yellow Onion	“ “ “ Late Corn
“ “ Parsley	“ “ “ Early Peas
“ “ Parsnip	“ “ “ Late Peas

The price of this package, shipped by prepaid express to any express office in New England is \$2.25 net cash with order. If wanted in New Jersey, New York or Pennsylvania add 25 cents to the above price to help pay extra expressage.

Last year we offered the above package for the first time and it gave such good satisfaction that we are pleased to again offer you the opportunity to obtain this assortment of the best of seeds at such small expense.

Early Paris. Good quality, medium large heads, . . .	50	1 35	5 00	4 90
Algiers. Vigorous growth, large head, late, . . .	60	2 25	8 50	8 25

PARIS GOLDEN CELERY.

CELERY.

Paris Golden. Self blanching. Finest French grown. (Originators stock).

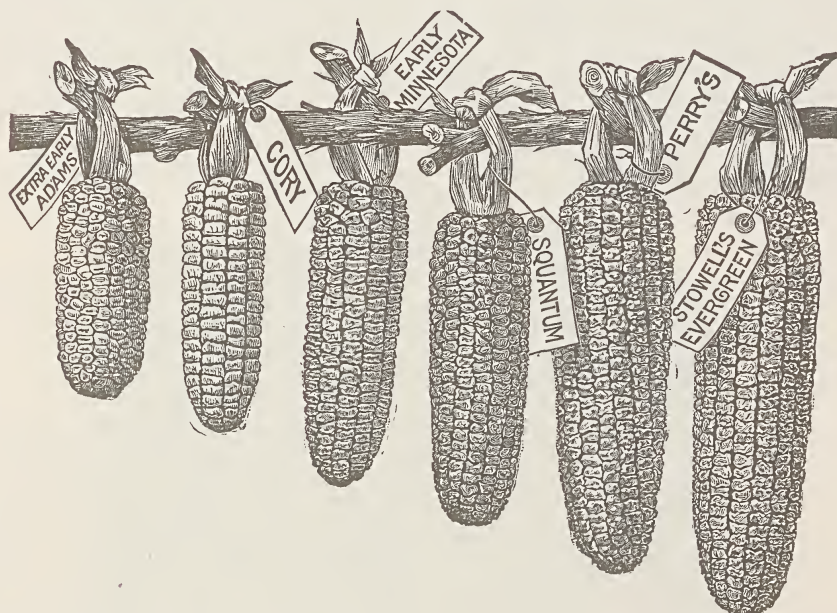

We import this strain direct from the originators in Paris and highly recommend it. Per oz., 25c., per ¼ lb, 85c., per lb., \$3.00, 5 lbs. or more, \$2.75 per lb.

CELERY—Continued.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
White Plume. Self bleaching,	\$0 15	\$0 40	\$1 40	\$1 30
Giant Pascal. Excellent green variety, crisp and tender, fine keeper,	10	30	1 00	90
Perfection Heartwell. Golden yellow hearted, superior quality,	10	30	1 00	90
Golden Heart Dwarf. Old standard, fine flavor,	10	30	1 00	90
Crawford's or Henderson's Half Dwarf. Medium size, yellowish white,	10	30	1 00	90
Evans' Triumph. Broad ribbed, solid celery; good keeper,	15	35	1 25	1 15
Boston Market. One of the old reliable sorts,	10	30	1 00	90
Shumacher. Very large yellow heart, nutty flavor, crisp,	15	35	1 25	1 15
Winter Queen. Finest winter variety, long keeper,	15	35	1 25	1 15
Celeriac. Large, smooth sprague, turnip-rooted celery,	10	30	1 00	90

CORN SALAD.

Broad Leaved. A good substitute for lettuce in winter,	5	15	40	35
---	---	----	----	----

**SWEET CORN.**

There is no Sweet Corn grown that will equal in quality the Corn grown in New England. Our Corn crop is short this year but what we have is nice.

	Per quart.	4 quarts.	Per peck.	Per bu.
Extra Early Red Cory. Very early, large kernel, medium size red cob,	\$0 20	\$0 75	\$1 25	\$4 50
Extra Early White Cory. Like the above only white,	20	75	1 25	4 50
Burbank's Early Maine. Improved White Cory,	20	75	1 25	4 50
Mammoth White Cory. About as early and larger than White Cory,	25	80	1 35	5 00
Cosmopolitan. One of the best Early Large Eared varieties,	25	80	1 35	5 00
Early Minnesota. Early variety and good quality,	20	75	1 25	4 50
Early Metropolitan. Large, second early, white ears, 10 to 12 inches,	25	80	1 35	5 00
Early Champion. Large ear, white grain, early, market gardener's favorite,	20	75	1 25	4 50
Crosby's Early. No better corn grows, for second early,	20	75	1 25	4 50
Perry's Hybrid. Sweet, tender, good sized ear, second early,	20	75	1 25	4 50

SWEET CORN.—Continued.

	Per quart.	4 quarts.	Per peck.	Per bu.
Black Mexican. Black kernel, fair sized ear, second early, fine quality,	\$0 25	\$0 80	\$1 35	\$5 00
Russell's Prolific. Medium early of excellent quality,	20	75	1 25	4 50
Excelsior Sugar Twelve Rowed. Similar to Russell's Prolific,	20	75	1 25	4 50
Moore's Early Concord. Thick ear, good size, fine quality,	20	75	1 25	4 50
Early Evergreen. About 10 days earlier than Stowell's Evergreen,	25	80	1 35	5 00
Potter's Excelsior or Squantum. Second early, very sweet,	25	80	1 35	5 00
Early Mammoth. Long, slim ear, about two weeks earlier than Late Mammoth,	25	80	1 35	5 00
Hickox. Quite similar to Early Mammoth,	25	80	1 35	5 00
Stowell's Evergreen. Old and tried variety,	25	80	1 35	5 00
Shoe Peg. Long, slim kernel, ears medium size, very sweet; late,	25	80	1 45	5 50
Country Gentleman. Little larger than Shoe Peg,	25	80	1 45	5 50
Late Mammoth. Very large white ears and late,	25	85	1 55	6 00

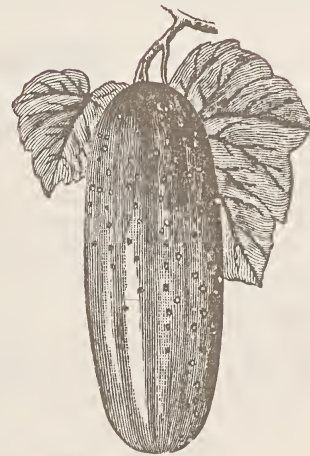

For Field and Ensilage Corn, see page 21.

CRESS.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
Extra Curled. Quick growing,	\$0 05	\$0 10	\$0 25	\$0 20

WESTERFIELD'S CHICAGO PICKLE CUCUMBER.

PEERLESS WHITE SPINE.

CUCUMBER.

Arlington White Spine. A superior strain for forcing,	10	20	60	50
Peerless White Spine. Early, handsome, fine cucumber,	10	20	60	50
Improved Early White Spine. Med. length, early, tender and crisp,	10	20	60	50
Extra Long White Spine. Long, slender, excellent for pickles,	10	20	60	50
Evergreen White Spine. Similar to Ex. Long White Spine,	10	20	60	50

Southern Rattlesnake. Grown extensively in the south,	5	15	45	40
Improved Mountain Sweet. Old reliable sort,	5	15	45	40
Florida Favorite. Large, oblong, med. early, fine flavor,	5	15	50	45
Cuban Queen. Large, late melon,	5	15	50	45
Red Seeded Citron. For preserving, red seeded,	5	15	50	45
Colorado Citron. For preserving, green seeded,	5	15	50	45

MUSKMELON.

The Grand. This splendid new Melon, that we catalogued last year for the first time is a sport from the **Osage** which it resembles in quality, but differs somewhat in color and markings and is more uniform in size. It is at least ten days earlier than **Osage**. Has a more vigorous vine and because of its vigorous growth is a greater yielder. The fruit is round or slightly elongated, slightly ribbed. Color: a peculiar pea green, with netting a lighter shade. The flesh is firm, fine grained, of a rich salmon or red color. In flavor it even surpasses the best grown **Osage** or **Emerald Gem**. The flesh extends to the rind and retains its color and quality quite to the outer shell, which, though thin, is very hard and firm, and because of this bears shipment remarkably well. The flesh is thick, very thick, considering the size of the melon, leaving a small seed cavity. Price, pkt. .08c; 4 pkt. .25c; oz. .40c; ¼ lb. \$1.40; 1 lb. \$5.00.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
Paul Rose or Petoskey. Slightly oval, fine netted, heavy ribbed, yellow flesh and very sweet,	\$0 10	\$0 20	\$0 75	\$0 70
Extra Early Jenny Lind. Extra early; small, green flesh,	10	20	65	60
Miller's Cream or Osage. Globe shape, dark green skin; flesh salmon color,	10	25	80	75
Green Fleshed Osage. Hardy, very prolific, oblong, sweet,	10	25	80	75
Early Hackensack. Week earlier than late Hackensack,	10	20	75	70
Montreal Green Nutmeg. Large, green flesh, round with flattened ends,	10	20	65	60
Hackensack or Turk's Cap. Large, round, green flesh, deeply ribbed,	10	20	75	70
Improved Christiana or Boston Pet. Extra early, med. size, green skin, rich yellow flesh,	10	20	65	60
Long Island Beauty. Improved Hackensack,	10	25	80	70
Prolific Green Nutmeg. More prolific than Green Nutmeg,	10	20	75	70
Rocky Ford. Oblong, fair size and finely netted, sweet, green flesh; great shipper,	10	20	75	70
Emerald Gem. One of the best melons that grows, salmon color, very sweet,	15	30	1 00	90
Jersey Belle. Improved large Jenny Lind,	10	25	80	75

Perfect Yellow Globe Danver's Onion.

ONION.

We are old onion seed growers and are very careful to have our stocks pure and the best quality.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
Yellow Danvers. Round, bright yellow,	\$0 15	\$0 40	\$1 50	\$1 40
Yellow Globe Danvers. A globe shaped onion, little flattened at bottom,	15	50	1 75	1 65
Perfect Yellow Globe Danvers. A very fine strain,	15	55	2 00	1 90
Michigan Yellow Globe. Globe shaped, good onion for heavy land,	15	55	1 75	1 65
Ohio Yellow Globe. Very popular in Ohio markets,	15	55	1 75	1 65
Southport Yellow Globe. True globe shaped,	20	65	2 00	1 90
Yellow Dutch or Strasburg. Flat onion, sowed extensively for sets,	15	40	1 50	1 40
Prize Taker. Very large, handsome yellow onion,	15	40	1 50	1 40
Extra Early Red Flat. About ten days earlier than Red W'f'd, Large Red Wethersfield. The old reliable,	15	50	1 75	1 65
Southport Red Globe. Great for Eastern markets,	15	55	2 00	1 90
Silver Skin or White Portugal. Flattish round onion, good quality,	25	85	3 00	2 90
Southport White Globe. Best white onion for market,	30	1 00	3 50	3 40
Early White Barletta. Extra early, small pickling onion,	15	40	1 40	1 30
Early White Queen. Quite similar to Barletta,	15	40	1 40	1 30

Taber's Exquisite Dwarf, Dark Green Curled. A fine variety, Extra Triple Curled. More curled than any other,	10	20	60	55
Double Curled. Old standard,	5	15	50	45
Champion Moss Curled. Improvement on Double Curled.	5	15	50	45

THOMAS LAXTON PEAS.

PEAS.—First Early Varieties.

	Per quart.	4 quarts.	Per peck.	Per bu.
Maud S. Superior strain of the extra early variety, 2½ feet, .	\$0 20	\$0 60	\$1 10	\$4 00
East Hartford Extra Early. Very popular with gardeners around Hartford, 2½ feet,	20	60	1 10	4 00
Philadelphia Extra Early. The old and tried sort, 2½ feet,	15	50	90	3 50
First and Best. One of the earliest, 2½ feet,	15	50	95	3 60
Alaska or Laxton's Earliest of All. Good market variety, 2½ feet,	20	60	1 10	4 00
*Gradus or Prosperity. Earliest large podded variety, extra fine; our strain is of true type, 2½ to 3 feet,	30	1 00	1 75	6 50
*Thomas Laxton. Large handsome pods, first class quality, 3 feet,	25	90	1 50	5 50

First Early Varieties.—Continued.

	Per quart.	4 quarts.	Per peck.	Per bu.
* Extra Early Premium Gem. Improvement on Little Gem, 15 inches,	\$0 20	\$0 70	\$1 20	\$4 80
* McLean's Little Gem. A very popular garden pea, 18 inches,	20	65	1 20	4 75
* American Wonder. Medium sized pod, flavor of the best, 9 inches,	25	85	1 50	5 50
* Nott's Excelsior. Improved American Wonder, better yielder, 15 inches,	25	85	1 50	5 50
* Sutton's Excelsior. This is one of the best peas in cultivation, similar in growth to Nott's Excelsior, but excelling same in bearing; much larger pods filled with large tender peas of delicious flavor,	25	90	1 60	6 00

Second Early Varieties,

* Bliss' Abundance. Well filled pods, prolific, fine flavor, 20 in.,	20	60	1 10	4 00
* McLean's Advancer. Good sized, well filled pods, excellent quality, 2 feet,	20	60	1 10	4 00
* Shropshire Hero. Much improved Yorkshire Hero, better quality, 2½ feet,	20	60	1 05	4 00
* Horsford Market Garden. Similar to Abundance, 2 feet,	15	50	95	3 75
* Heroine. Pods long, filled with fine flavored peas, very prolific, 2 feet,	20	65	1 20	4 50
* Juno. Robust and vigorous in growth bearing straight pods of medium size, and well filled with fine flavored peas.	20	60	1 10	4 00
* Dwarf Telephone. Long, broad, straight pods; delicious flavor,	25	90	1 60	6 00

General Crop Varieties,

* Sharp's Queen. Large, handsome pods; delicious peas, 2½ feet,	20	65	1 20	4 50
* Improved Stratagem. Valuable market garden sort, 2 feet,	25	90	1 60	6 00
* Bliss' Everbearing. Vigorous branching vines, good sized pods, 2 feet,	20	60	1 10	4 00
* Dwarf Champion or Duke of Albany. Fine variety,	20	65	1 20	4 75
* Carter's Telephone. Vine and leaves large and coarse, long straight pods; peas large, tender and sweet. Popular with many growers, but liable to sport and it is very difficult to grow a pure stock, 3½ feet,	20	70	1 30	5 00
* Allan's Improved Telephone. A much improved type of Carter's Telephone, 3½ feet,	20	75	1 40	5 25
* Sutton's Defiance. Large pods full of delicious flavored peas,	20	75	1 40	5 25
* Champion of England. Everybody knows this variety, 5 feet,	15	45	80	3 00
Large White Marrowfat. A heavy yielder, but rather coarse quality,	10	30	55	2 00
Black Eyed Marrowfat. More for stock feeding,	10	30	55	2 00
Canada Field. Excellent to sow with oats for feed,	10	30	50	1 75

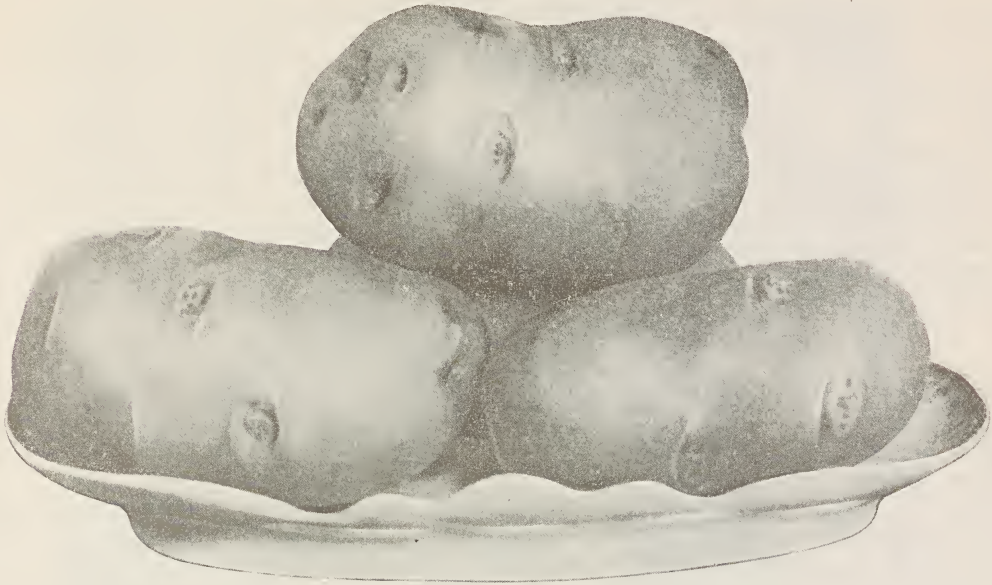

*Wrinkled Varieties.

PARSNIP.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
Student. Long white parsnip, excellent flavor,	\$0 05	\$0 10	\$0 25	\$0 20
Improved Guernsey. Med. long, superior quality,	5	10	30	25
Hollow Crown Improved. One of the best for general use,	5	10	25	20
Large Smooth Sugar. Quite like Hollow Crown,	5	10	25	20

PEPPER.

Large Bell or Bull Nose. A thick pepper, excellent for stuffing,	\$0 15	\$0 45	\$1 60	\$1 50
Sweet Mountain. Little longer shaped than Bull Nose,	15	45	1 60	1 50
Ruby King. Very large and mild flavor,	15	45	1 75	1 60

MAINE GROWN SEED POTATOES.

There is probably no crop grown that is benefited more by change of seed than the potato. This has been demonstrated extensively by ourselves and others in this vicinity and proven that the Northern Grown Seed produces much better results both in yield and quality of the potatoes, and growers realize this fact and are planting more every year of this Maine grown stock in preference to their native seed. We have thousands of bushels of these potatoes contracted for and stored in frost-proof cellars in Maine to be shipped to us in the spring and expect they will reach us about April 10th. And can be reshipped to our customers direct from the cars as soon as they arrive.

There is no doubt but what the potato crop in Maine is short this year, some growers report a shortage of 40 per cent. to 50 per cent. of last year and we look for high prices in the spring. The prices we quote are what seems to us fair prices at the time this catalogue is printed but are subject to market fluctuations.

	Per bb1. Sack 165 lbs. net.	5 sacks or more Per sack.
Junior Pride or White Bliss. Early, round, uniform in shape; medium sized vine, which dies down early in the season and does not rust or blight,	\$4 00	\$3 75
Irish Cobbler. Early, cream-white color, nearly round; excellent quality; vigorous grower,	4 00	3 75
Vermont Gold Coin. Very hardy, vigorous in growth; tubers slightly oblong, broad and thick; excellent main crop,	4 00	3 75
Early Harvest. Handsome oblong white potato; great yielder,	3 75	3 50
Early Rose. An old well-known variety,	3 75	3 50
Early Beauty of Hebron. A great favorite with most planters,	3 75	3 50
New Queen. Popular early variety, resembling Beauty of Hebron.	3 75	3 50
Carman No. 1. Heavy yielder of large handsome white potatoes; fine quality,	3 75	3 50
Carman No. 3. Longer in shape than No. 1, excellent quality.	3 75	3 50

SEED POTATOES.—Continued.

	Per bbl. Sack 165 lbs. net.	5 sack or more Per sack.
Green Mountain. Large, white, handsome potato; very popular,	\$3 75	\$3 50
Delaware. Resembles Green Mountain, medium early, late keeper, great cropper,	3 75	3 50
Uncle Sam. Green Mountain type, one of the best,	3 75	3 50

PUMPKIN.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
White Cushaw Crookneck. Cream color, slightly striped,	\$0 10	\$0 20	\$0 50	\$0 45
Small Yellow Sugar. The best pie pumpkin,	5	15	35	30
Large Cheese. Round, flattish pumpkin, ribbed,	5	15	35	30
Mammoth Tours. Very large, green color,	10	30	1 00	90
Mammoth Potiron or King of Mammoth. Great pumpkin for fairs,	10	30	1 00	90
Connecticut Field. Old standard, excellent for feeding,	5	10	20	18

**RADISH.**

Carmine Olive-Shaped. A beautiful bright red radish,	10	20	50	40
Extra Early Erfurt. One of the earliest turnip radishes,	10	20	50	40
Rosy Gem. Either for greenhouse or open culture; round white tipped,	5	15	40	35
Early Scarlet Globe. One of the best market varieties,	10	20	50	45
Early Deep Scarlet Turnip. Very deep color; excellent,	5	15	45	40
Half Long Deep Scarlet. Excellent, of medium length,	5	15	40	35
Early Red Turnip. A popular garden variety,	5	15	40	35
Early Scarlet Turnip. Like the preceding, lighter color,	5	15	40	35
Early Scarlet Turnip, White Tip. Round scarlet radish with white root,	5	15	40	35
Early Yellow Summer Turnip. Like Scarlet Turnip, only in color,	5	15	45	40
Early French Breakfast. A short radish with white root,	5	15	40	35
Early White Turnip. An early summer variety,	5	15	45	40
Olive Shaped Scarlet. Shaped like an olive, bright scarlet color,	5	15	40	35
Early Short Top Long Scarlet. The old standard long radish,	5	15	40	35

RADISH.—Continued.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs or more Per lb.
White Strasburg. A leading summer variety,	\$0 05	\$0 15	\$0 40	\$0 35
White Vienna or Lady Finger. Long, slim radish,	5	15	40	35
Chartier. A long scarlet radish, white root,	5	15	40	35
Chinese Rose—Winter. Excellent winter variety,	5	15	40	35
Long Black Spanish—Winter. Large and hardy, keeping until spring,	5	15	40	35
Round Black Spanish—Winter. Globe-shaped, fine quality,	5	15	40	35

RHUBARB, or Pie Plant.

Large Victoria. The most popular variety,	10	30	1 00	90
---	----	----	------	----

SUNFLOWER.

Mammoth Russian. Very large flower, seeds excellent for fowls,	5	10	15	10
---	---	----	----	----

SALSIFY, or Vegetable Oyster.

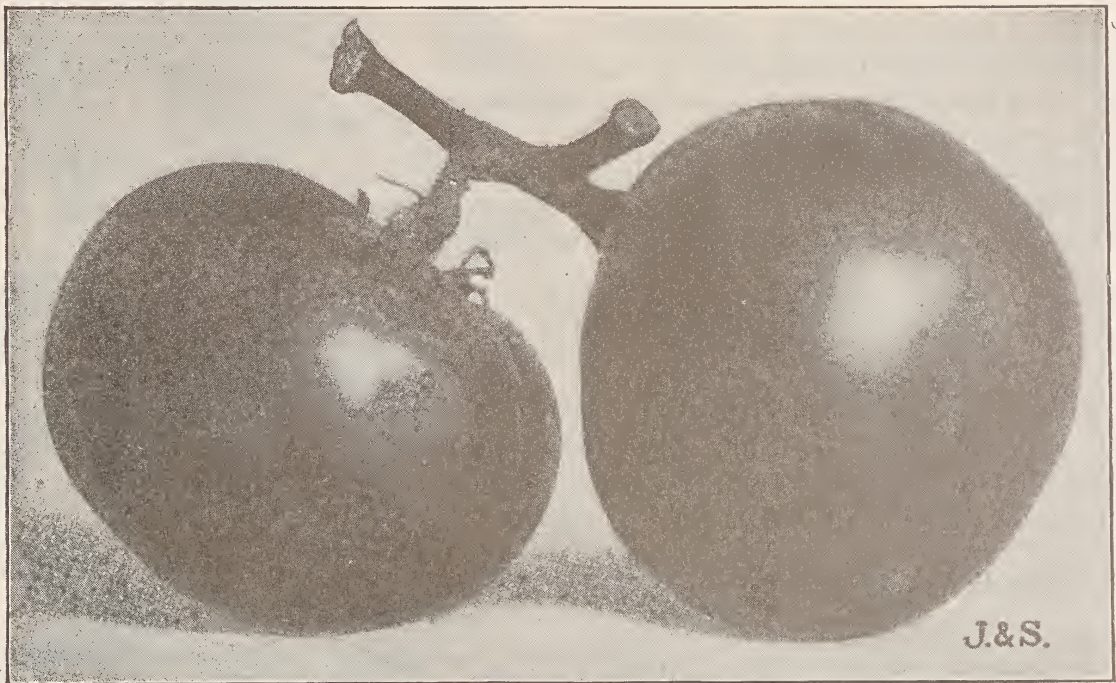

Long White. The standard variety,	10	20	75	70
Mammoth Sandwich Island. The largest,	10	25	90	80

SPINACH.

Early Giant Thick-Leaved. A fine early spinach,	5	10	20	15
Curly Savoy or Bloomsdale. Good variety to sow in fall for spring use,	5	10	20	15
Round Summer. The old round-leaf sort,	5	10	18	14
Long Standing. Said to stand two weeks longer than other varieties,	5	10	18	14
Victoria. One of the best round spinaches,	5	10	18	14
Large Viroflay Thick-Leaved. Popular with market gardeners,	5	10	18	14

SQUASH.

Early White Bush Scallop. A flat scalloped variety,	10	15	50	45
Early Golden Bush Scallop. Like the above only in color,	10	15	50	45
Summer Crookneck. Best early table squash,	10	20	60	50
Giant Summer Crookneck. Larger than the preceding,	10	20	70	65
Early Orange Marrow. Med. size, excellent for fall or winter,	10	15	50	45
Dunlap's Prolific Marrow. Quite similar to the above,	10	15	50	45
Boston Marrow. A good keeper of fine quality; yellow skin,	10	15	45	40
Essex Hybrid. Creamy-orange, round, flattened ends, nub at flower end,	10	20	65	60
Improved Hubbard.. Old standard improved,	10	20	65	60
Chicago Warty Hubbard. Fine quality,	10	20	65	60
Golden Hubbard. Like Improved Hubbard only in color,	10	20	65	60
Marblehead. Light colored flesh, sweet, delicious flavor,	10	25	90	80
Mammoth Chili. Enormous and coarse grained,	15	35	1 25	1 15

TOMATO.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
June Pink. Early pink tomato of good quality,	\$0 25	\$0 80	\$3 00	\$2 75
Chalk's Early Jewell. Best extra early, smooth, red tomato, .	20	65	2 50	2 40
Sparks' Earliana. Very early, good size, but inclined to be rough,	20	65	2 50	2 40
Atlantic Prize. A fine, extra early, red variety for general use,	15	45	1 60	1 50
Early Acme. Good family tomato; solid, pinkish color,	15	45	1 60	1 50
Ignotum. Large, solid deep red tomato,	15	40	1 50	1 40
Maul's Imperial. Superior quality, pink color,	15	45	1 75	1 60
Livingston's Beauty. Large, thick tomato, light purple,	15	40	1 50	1 40
Livingston's Favorite. Bright red and smooth,	15	40	1 50	1 40
Livingston's New Stone. The best all around tomato, bright red,	15	40	1 50	1 40
Livingston's Perfection. A favorite with canners,	15	40	1 50	1 40
Livingston's New Dwarf Stone. Short, stocky vine; fine large, smooth, red tomato,	20	65	2 50	2 40
Volunteer. Medium size, red variety,	15	40	1 50	1 40
Large Red Trophy. Old standard,	15	40	1 50	1 40
Golden Trophy. Like the preceding, only yellow,	15	40	1 50	1 40
Golden Queen. Similar to Golden Trophy,	15	40	1 50	1 40
Essex Hybrid. Quite like Acme,	15	45	1 60	1 50
Dwarf Champion. Solid, smooth dwarf, pinkish variety,	20	60	2 25	2 15
Dwarf Aristocrat. Like Dwarf Champion, bright red,	20	65	2 40	2 30
Table Queen. Purplish red, large and solid,	15	40	1 50	1 40
Pear Shaped Yellow. Small oblong variety,	15	40	1 50	1 40
Yellow Plum. Small, round tomato,	15	40	1 50	1 40
Yellow Cherry. Smaller than plum,	15	40	1 50	1 40
Henderson's Ponderosa. Very large, rather coarse grained, . .	20	65	2 50	2 40
Enormous. The best extremely large tomato, fine quality, . . .	20	55	2 00	1 90

TURNIP.

	Per oz.	Per ¼ lb.	Per lb.	5 lbs. or more Per lb.
Extra Early Milan Purple-Top. The earliest,	\$0 05	\$0 15	\$0 40	\$0 35
Purple Top Flat Strap-Leaved. Well-known variety,	5	10	25	22
Early White Flat Dutch. Same shape as the preceding, white, Strap-Leaved White Flat. Flat white turnip,	5	10	25	22
Large Red Top Globe. Large white turnip with red top,	5	10	25	22
Long White Cow Horn. Heavy cropper; excellent for stock, White Egg. Handsome pure white, med. size; fine market variety,	5	15	30	25
Pomeranian White Globe. Large, pure white,	5	10	25	22
Yellow Aberdeen. Very large green top, good for table or stock,	5	10	25	22
Yellow Stone. Very solid and smooth; excellent for winter,	5	10	25	22
Golden Ball. A smallish, smooth, yellow turnip; excellent keeper,	5	10	25	22
Purple Top Yellow Globe. Large yellow turnip with purple top,	5	10	25	22
Green Top Yellow Globe. Old standard variety,	5	10	25	22

RUTA BAGA, or Swedish Turnip.

Sweet German. Long, white, smooth and tender,	5	10	25	22
White French or Rock. Improvement on the preceding,	5	10	25	22
Breadstone or Budlong. The best white variety,	5	10	25	22
Am. Improved Purple-Top Yellow. Very hardy and produc- tive,	5	10	25	22
Skirving's Purple-Top Yellow. Large size, strong growth,	5	10	25	22
Waite's Improved Purple-Top Yellow. An improved type,	5	10	25	22
Long Island Improved Purple-Top Yellow. One of the best,	5	10	25	22

MILLET.

	Per 4 quarts.	Per peck.	Per bu.	2 bus. or more Per bu.
German or Golden. (Bush. 50 lbs.), slower grower and some taller than Hungarian,	\$0 20	\$0 35	\$1 25	\$1 20
Hungarian Grass or Millet. (Bush. 48 lbs.), extensively sown to help out late feed and hay crop,	20	35	1 25	1 20
Japanese or Barnyard Millet. (Bush. 32 lbs.), a great forage plant, very heavy cropper,	35	60	2 00	1 80

SEED OATS.

Lincoln. Early, rust proof and hardy, straw stiff and strong,	20	35	1 00	90
American Banner. A thrifty variety well known in New England,	20	35	1 00	90
White Queen. An excellent white variety, hardy and prolific,	20	35	1 00	90
Silver Mine. Large white oat and very heavy yielder,	20	35	1 00	90
Common Seed Oats,	15	25	90	80

Thoroughbred Leaming Corn.

We would again call your attention to this excellent strain of Field Corn which has proved to be so very satisfactory, both for ensilage and shelled corn, and we do not hesitate to highly recommend it for such purposes. It is a strain of the Improved Leaming, bred up to its highest efficiency, ripening about the same time as the old style, kernels and ears more uniform, better filled out and of much purer type. It has a good sized stalk with abundance of leaves and is a heavy yielder of large, handsome ears, making it a valuable variety for general purposes.

FIELD AND ENSILAGE CORN

Ninety-Day Yellow (true stock); probably the earliest field corn in cultivation; bright yellow flint, small cob and very prolific. A bushel of ears generally shelling about 24 quarts of shelled corn,

Early Canada Yellow. Medium size flint corn, extensively grown in New England,

	Per 4 quarts.	Per peck	Per bu.	2 bus. or more Per bu.
Ninety-Day Yellow	\$0 25	\$0 40	\$1 40	\$1 35
Early Canada Yellow	25	40	1 40	1 35

FIELD AND ENSILAGE CORN.—Continued.

	Per 4 quarts.	Per peck.	Per bu.	2 bus. or more Per bu.
Pride of the North. Early maturing Dent variety, good for ear or ensilage,	\$0 25	\$0 40	\$1 40	\$1 35
Reed's Improved Yellow Dent. A very choice strain of early Dent,	25	40	1 50	1 40
Early Leaming. Ears large, deep kernel, excellent for ear corn or ensilage,	25	40	1 40	1 35
Bronze Beauty. Very deep golden yellow kernel, medium early and very prolific, one of the best for ear corn or ensilage,	25	40	1 50	1 40
Red Cob Ensilage. A late white corn, red cob, used extensively for ensilage,	25	40	1 40	1 35
Thoroughbred Leaming. Improved type; see illus., page 21,	25	40	1 50	1 40
Sweet Corn for Fodder,	40	70	2 25	2 00

GRASS SEED.

DON'T BUY INFERIOR GRASS SEED We wish to call your attention to the fact that you can buy most any grade of Grass Seed you want from a very low inferior grade, full of dirt and weed seed, to a high pure grade. We claim that farmers generally can grow weeds enough without sowing weed seed and think it a very poor policy for any one to sow a grade of grass seed that is pretty sure to fill his land with weeds, he had much better pay a little more for his seed and get a good article. We handle a choice grade and shall be pleased to mail samples if wanted. Grass Seed is very liable to fluctuate in price and it is impossible to give permanent quotations. Below are prices ruling at the time this Catalogue was printed and we will stand by them as long as we can. We are always glad to quote by letter.

	Per lb.	10 lbs. or more Per lb.	25 lbs. or more Per lb.	100 lb. or more, Per lb.
Fancy Lawn Grass Mixture,	\$0 20	\$0 18	\$0 17	\$0 16
Red Top. Sown alone or with Timothy makes excellent hay,	12	11	10½	10¼
Timothy or Herds Grass. Makes fine horse hay,	08	07	06½	06¼
Orchard Grass. Good to sow with other grass seed for pasture and shady places,	14	13	12	11
Kentucky Blue Grass. Valuable for pasture when mixed with other varieties,	20	19	18½	18
English Rye Grass. A permanent nutritious meadow grass,	12	11	10	09
Meadow Fox Tail Grass. Earlier than timothy, which it resembles,	28	27	26	25
Tall Meadow Oat Grass. Early, luxuriant growth, excellent for pasturing or hay,	21	20	19	18
Pasture Mixture,	13	12	11	10
Meadow Mixture,	13	12	11	10

CLOVER SEED.

Alsike. Excellent for permanent pasturage, very hardy, good for wet or dry soil,	20	19	18½	18
Alfalfa or Lucerne. When well rooted is very hardy, three crops in one season, fine cow feed,	20	19	18½	18
White Dutch. Good for pastures, when sown with red clover,	20	19	18	17
Medium Red. This is the common hay clover so extensively used,	20	19	18½	18
Mammoth Red or Pea Vine. Excellent to plow under for green manure,	20	19	18½	18
Crimson or Scarlet Italian. Excellent for bees also to plow under,	11	10	09½	09

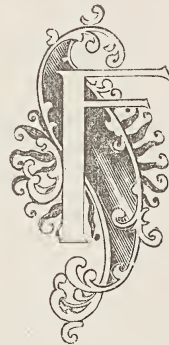

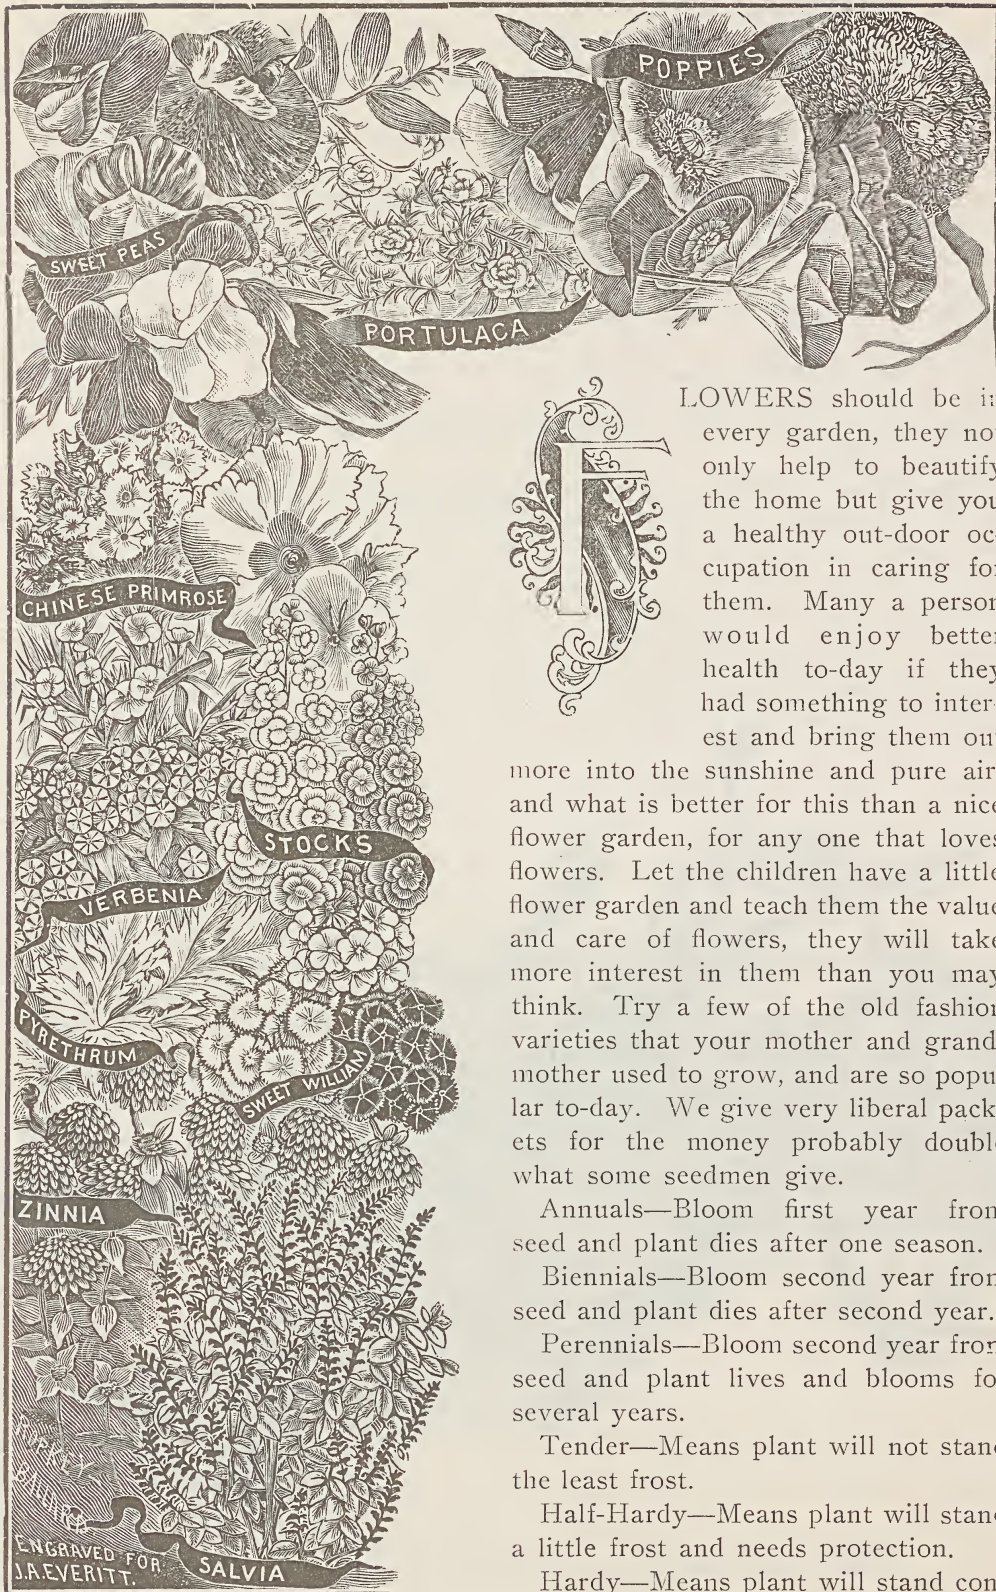

MISCELLANEOUS.

	Per 4 quarts.	Per peck.	Per bu.	2 bus. or more Per bu.
Russian Sand or Hairy Vetches. (Bush. 60 lbs.), sown alone or with rye and clover, make fine winter covering; excellent to plow under to enrich the soil,	\$0 80	\$1 50	\$5 75	\$5 50
Dwarf Essex Rape. (Bush. 60 lbs.), great for sheep pasture, also for cattle and hogs,	60	1 15	4 50	4 25
Whip-Poor-Will Cow Peas. (Bush. 60 lbs.), early-maturing variety; vigorous, upright growth,	55	90	3 25	3 00

THE O. K. HALLOCK ELEVATOR POTATO DIGGER.

This digger is strong and durable, easy to handle and does the prettiest work of any digger on the market. Write for descriptive circular and our special cash with order price.

FLOWERS should be in every garden, they not only help to beautify the home but give you a healthy out-door occupation in caring for them. Many a person would enjoy better health to-day if they had something to interest and bring them out more into the sunshine and pure air, and what is better for this than a nice flower garden, for any one that loves flowers. Let the children have a little flower garden and teach them the value and care of flowers, they will take more interest in them than you may think. Try a few of the old fashion varieties that your mother and grandmother used to grow, and are so popular to-day. We give very liberal packets for the money probably double what some seedmen give.

Annuals—Bloom first year from seed and plant dies after one season.

Biennials—Bloom second year from seed and plant dies after second year.

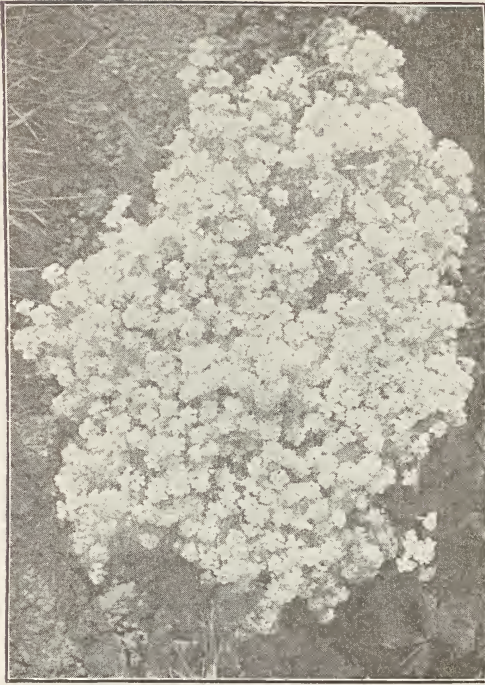

Perennials—Bloom second year from seed and plant lives and blooms for several years.

Tender—Means plant will not stand the least frost.

Half-Hardy—Means plant will stand a little frost and needs protection.

Hardy—Means plant will stand considerable frost.

AGERATUM (Floss Flower.)	Pkt.	CARNATION.	Pkt.
A hardy annual of easy culture. Especially valuable for bedding as it is literally covered with blossoms all summer. Sow the seed early in spring, either in boxes to transplant, or out of doors and thin to four or six inches.		A half-hardy perennial, used generally for greenhouse trade in winter and for a general garden favorite in summer. Sow the seed early in the year in hotbed and transplant about April 15th.	
Best mixed varieties,05	Margarita Choicest Mixed,10
ALYSSUM, Sweet.		CENTAUREA.	
A fragrant hardy annual, bearing spikes of small, white flowers in great profusion throughout the summer and autumn. Useful for borders or early bedding. Sow the seed early in spring.		A hardy annual, growing 1½ to 2 feet high, bearing beautiful large flowers resembling sweet Sultan, but with a large petal margin around the blossom, sow seed early and transplant.	
Little Gem, 3 to 4 inches high,05	Imperialis Choice Mixed,15
Per ounce, 20 cts.		CLARKIA.	
White Carpet,05	Hardy annual of easy culture about 18 inches high, flowering in great profusion, seed sown in fall will give blossoms in spring, and can be sown most any time.	
Per ounce, 25 cts.		Finest Mixed,05
ANTIRRHINUM (Snap Dragon.)		COCKSCOMB.	
A half-hardy perennial, growing from 6 inches to 2 feet tall. Flowers are oddly shaped and apparently closed, but by pressing the sides together can be made to open like a dog's mouth.		A half-hardy annual, growing 6 to 8 inches high, bearing a wide wavy blossom that resembles a cock's comb. Brilliant colors and fine for massing or border work.	
Extra Choice Mixed,05	Choicest Dwarf, mixed varieties,10
Per ounce, 25 cts.		COSMOS.	
ASTERS.		A tender annual, with fine cut feathery foliage and large feathery blossoms. Grows 4 to 6 inches high and blooms late in fall. Sow about May 1st and transplant in late May or June.	
A popular half-hardy annual, growing from one to two feet high. The best method of culture is to sow the seed in boxes in late winter and transplant about May 1st. The seed can be sown, however, in rows where the plants are to remain, thinning them 10 to 12 inches apart.		Choice Mixed Varieties,05
Queen of Spring, (white),10	DAHLIA.	
Queen of Market, finest mixture,10	A well known and popular late summer and autumn flowering plant. Seed may be sown early in hot bed and plants transplanted in May after all danger of frost is over. By sowing the seed early the plants may be made to bloom the first year.	
Choice Tall Mixed, best varieties,10	Single (extra choice mixed),10
BACHELOR'S BUTTON.		Double (large flowering, finest mixed),15
A hardy annual of easy culture. Sow the seed early in spring where it is to remain and thin to 3 or 4 inches.		DIANTHUS (Pinks.)	
Finest Mixed Varieties,05	Hardy annual about one foot high and bearing beautifully colored single and double blossoms in profusion all summer. Sow seed early in boxes and transplant, or sow in rows where the plants are to remain and thin.	
CALLIOPSIS.		Splendid Mixed Varieties,05
A half-hardy annual, growing 3 feet high and valuable for bright bedding effect or for cut flowers.			
Grandiflora,10		
CANDYTUFT.			
A hardy annual of easy culture, growing 10 to 18 inches high. The flowers are white and borne on various long spikes, forming very large heads, and are used for bedding or cut flowers.

DIGITALIS. (Fox Glove).

Pkt.

A hardy perennial, blooming the second year from seed. Grows usually about 3½ feet high. The bell-shaped flowers are borne on long spikes and in shades of purple, lavender, rose and white. All spotted lightly inside the blossom. Thrives best in cool, shady locations.

Best Mixed Varieties,05

GODETIA.

Hardy annual of compact growth, 6 to 10 inches high, bearing a profusion of satin cupshaped flowers, valuable for bedding or massing. Sow seed early.

Duchess of Albany,10

HOLLYHOCK.

A hardy perennial of upright, stately growth, 5 to 8 feet high. They make a fine row in the garden, or a fine background next to a building or high wall or fence.

Finest Double Mixed,10

MARIGOLD.

A hardy annual shrub plant in dwarf and tall varieties, growing from 6 inches to 3 feet high. Foliage, bright green, deeply cut, and graceful. The flowers are various shades of yellow and brown. Tall varieties are valuable for large bedding or background work and the dwarf varieties for border.

Eldorado, mixed colors, (tall),05

Dwarf, gold striped,05

MIGNONETTE.

A hardy annual, growing 6 to 12 inches high and bearing pyramidal-shaped flower spikes, which are made up of thickly set flowerets; exceedingly fragrant. Grows easily from seed and can either be transplanted from boxes or sown in garden and thinned to 4 to 6 inches. Valuable for potting, bedding or bordering.

Large Flowering,05

Machet (fine selected stock),05

NASTURTIUM.

Tender annual in two distinct classes, Dwarf and Tall or Climbing.

Dwarf (finest mixed colors), oz. 10c. ¼lb. 15c.

Tall (finest mixed colors), . . oz. 10c. ¼lb. 15c.

NICOTIANA.

Pkt.

A half-hardy annual, growing about 3 feet high. Belongs to the tobacco family, has white blossoms, needs plenty of room.

Affinis,10

PANSY.

A half-hardy perennial, growing 4 to 6 inches high. It thrives best in a moist, shady location and in rich loamy soil. Seed should be sown in autumn for early spring blossoms. While the plants carry over well with a little covering during the winter, it is best to plant the seed anew each year.

Large French Strain, choice mixture,10

PETUNIA.

A tender perennial. Adapted for greenhouse and pot culture and for open air, succeeding well in most any rich soil. Abundance of brilliant flowers during the season.

Extra Choice Mixed,15

PHLOX DRUMMONDII.

A hardy annual, growing from 6 to 10 inches high and bearing beautiful soft petaled and brilliantly colored, flowers all spring and summer. Fine for bedding. Sow seed about May 1st.

Choice Mixed,10

POPPY.

A hardy annual, 3 to 5 feet high and bearing single and large double blossoms in bright colors. Sow seed in open ground where plants are to remain and thin to 6 or 12 inches.

White Swan, (a large double white flower), .05

The Shirley Mixed, (large single flower), .05

SCABIOSA or Morning Bride.

Also called Sweet Scabious, Old Maid's Pin-cushion, etc. A hardy annual, growing 8 inches to 2 feet high, and bearing heads of bright flowers on long slender stems. Very effective as a bedding plant, or for cut flowers.

Tall Mixed German Double,05

SALPIGLOSSIS.

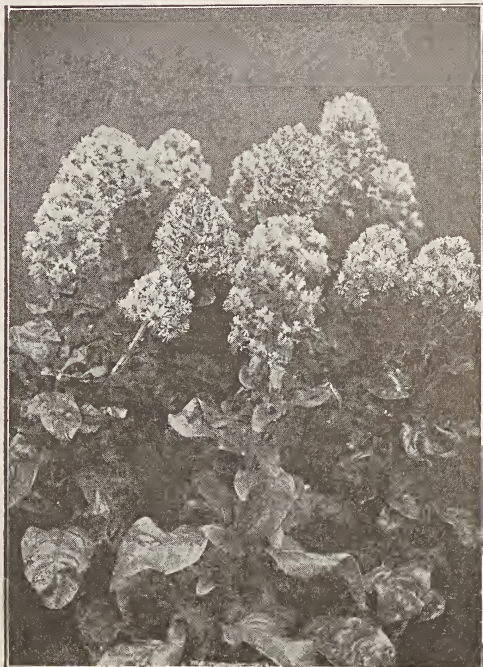

A half-hardy annual, about 3 feet high, bearing trumpet shaped blossoms of rich shades and colors, valuable for bedding or massing also for cut flowers. Sow seed early and transplant or thin to 6 or 8 inches.

Choice Mixed,15

SWEET PEAS
(See page 31)

DIANTHUS
(See page 25)

SALVIA.

A tender perennial, blooming the first season from seed and growing 2 to 3 feet high. The blossoms are borne on long stems or spikes and are fragrant. The plant forms a bunch filled with bright scarlet blossoms.

Splendens, 15

SWEET PEAS.

The Sweet Pea is a climbing annual and hardy. This popular flower is of the easiest culture and well adapted to most any climate. The seed should be sown early in the spring in a drill 4 to 6 inches deep, dropping three or four seeds every four inches and covering about one inch, working the soil around the plant as it comes up until it is on a level with the surface, this leaves the roots down deep enough not to be so effected by dry weather.

Sweet Peas require an abundance of water and an open location. The water should be applied at the roots and the vines should not be sprinkled. A trellis of brush or chicken wire is necessary.

Apple Blossom; crimson, pink and white shaded.

Aurora; orange, rose striped or white.

Blanche Burpee; pure white, (white seeded)

Countess of Cadogan; purple changing to lilac and blue.

Countess of Radnor; lavender.

Emily Eckford; rose, lilac and blue.

Fascination; standard lilac, wings tinged with lilac.

Her Majesty; rose crimson.

Hon. Mrs. E. Kenyon; large primrose.

Lady Grisel Hamilton; light shaded lavender.

Pkt.

Lottie Eckford; whiteshaded lilac and blue.

Lovely; deep pink, shading to light pink.

Miss Wilmot; large orange, pink.

Navy Blue; navy and light blue.

Othello; deep maroon.

Prima Donna; pure pink.

Prince of Wales; purple wings, blue striped or white.

Sadie Burpee; white buds tinged with pink.

Salopian; bright red.

Venus; light pink and buff blended.

Price, any above variety,	8c.	15c.	40c.
Finest Mixed Colors,	5c.	15c.	25c.
Eckford's Superb or Mixed,	5c.	15c.	30c.

SWEET WILLIAMS.

A hardy perennial, blooming the second year from seed. Grows 1 to 2 feet high and bears its flowerets in clusters at end of a stiff stem. The individual flowers are handsomely colored and marked. It makes a beautiful bedding plant, and is of easy culture.

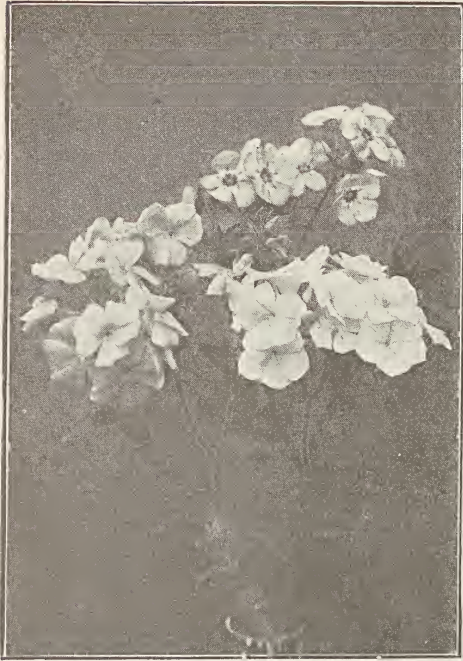

Pkt.

Double Finest Mixed, 10

ZINNIA.

A half-hardy annual, growing from 1 to 2 feet high. Blossoms are very double and while the stems are stiff they make an excellent bouquet flower. The colors are in great variety and very bright. Probably no flower has such an assortment of shades, tints and colors, and no bedding plant is more effective for a brilliant show. Sow in boxes early and transplant.

The Hallock Potato Diggers.

“O. K. ELEVATOR.”

“SUCCESS JR.”

“GILT EDGE.”

“SIMPLY PERFECT AND PERFECTLY SIMPLE.”
(PATENTED.)

We take pleasure in announcing to our many friends and customers that we have recently taken up the exclusive sale of the famous Hallock Potato Diggers. We have always manufactured the original and only genuine Hallock Diggers and we now offer them for sale along with our already large line of farm machinery.

These machines need no introduction as they have been on the market for the past fifteen years and the thousands of pleased customers, who have purchased them, are the best proof of their merits.

The old tiresome way of scratching potatoes out of the ground by hand is fast giving way to the more modern methods of harvesting the crop with a potato digger. Once a grower uses a digger he will never go back to digging by hand.

Many consider the potato digger the most labor saving machine on the farm. Where potatoes are grown extensively the digger will save its cost in one year. If you grow potatoes for profit you cannot afford to be without a digger.

The Hallock Diggers combine simplicity in construction with durability and lightness of draft. These features make them far preferable to any other diggers on the market. They are fully covered by patents and further patents are pending. We give detailed description of the machines. We also publish copies of a few, of the many, letters we are receiving daily from men who are using the diggers and are pleased with their work.

FOR SALE BY

Thomas Griswold & Co.,

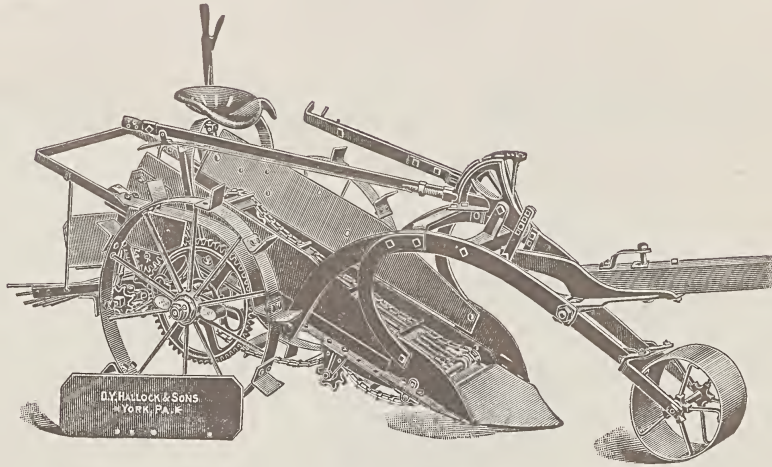

WRITE FOR OUR SPECIAL CASH WITH ORDER PRICE.

South Wethersfield, Conn.

The Hallock "O. K. Elevator" Digger.

Weight, 670 Lbs.

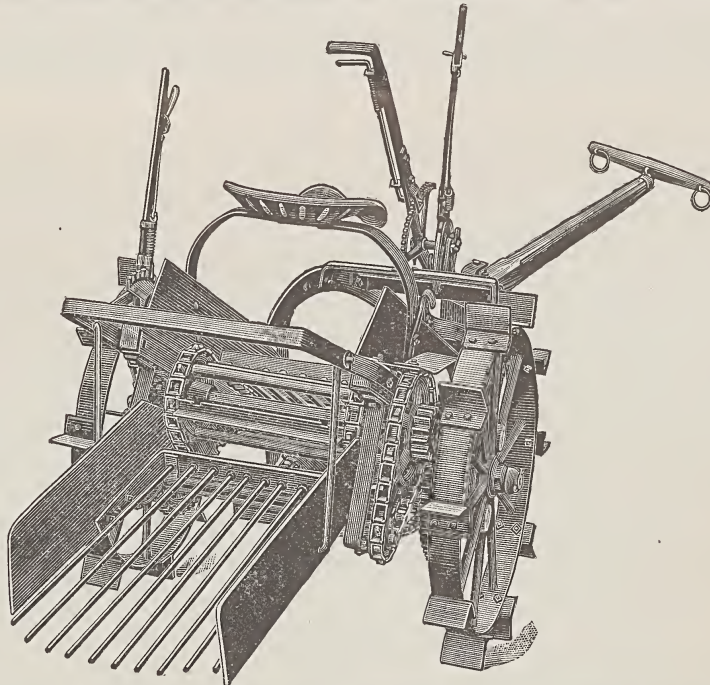

Price, \$85.00.

We give some details of our construction which combines every essential feature in all other elevator diggers, and these are supplemented by other vital features.

1st. Our elevator bottom is a huge fork hinged at lower end and agitated its whole length, and will run clean in the most adverse conditions.

2nd. This huge fork is supplemented by a rear fork which has more efficiency for separating than some elevators have in their whole mechanism. It is supported centrally, and agitated by a crank axle at its head, which gives a combined horizontal and vertical motion. The speed and vertical motion are adjustable, and being supported centrally it takes very little power to run it.

3rd. The single wheel truck is ten inches wide and runs the vines and weeds down from the machine, favorable for entering the elevator, and it sustains more uniform depth than a two wheel truck, where fields are washed. We, however, make a two-wheel truck for use in square planting. When ordering diggers it should be specified which truck is wanted. If no preference is given we will send the single-wheel truck.

4th. By our laterally rigid pole mechanism, you have the maximum of convenience for operating the machine, and the truck and shovel are both raised simultaneously by an independent lever, so the depth gauge lever need not be changed to turn at end of row. (This is a feature found on no other digger.)

5th. Team is hitched close to shovel, and draft connection with machine is well forward which is favorable for light draft and least strain on machine when striking rocks. The "O. K." Diggers are supplied with tongue and neck yoke only, no eveners. Eveners can be supplied when ordered extra.

The Farquhar Line=Hallock Potato Diggers.

Grain Drills, Corn Planters, Harrows and Cultivators.

CATALOGUE ON REQUEST.

POTATO GROWERS.

Two Hundred Percent Profit on Money Invested.

We consider the O. K. Hallock Elevator Potato Digger the best digger on the market for the money. It does the prettiest work and is the easiest elevator digger to handle that we know of and if you contemplate purchasing a digger you will make no mistake in ordering one of these machines.

This past summer we were very short of farm help and thought we could help matters by getting a digger to dig our potatoes so looked into the matter pretty thoroughly, finally purchasing an O. K. Hallock Machine. We hesitated a little at the price thinking that it might not pay us to put the amount of money into a digger as we had less than two acres of potatoes to dig, but let us say right here that if you set one of these diggers at work in your field, people seeing it will become interested in it and if you care to dig for others you will get all the work you want and soon have your digger paid for.

Before we had our digger home from the station and set up ready for work one of our farmers came to us and wanted us to dig his potatoes which we did more to accommodate than anything else as we were too busy with our own work to go out digging for other people and while digging his potatoes people passing by would stop and come into the field and were so well pleased with the work it did that they wanted us to dig their potatoes, which we refused to do at first, but requests came so fast and urgent that we finally set the digger at work digging for others at four dollars per acre and soon had our digger paid for and today the machine stands in our barn practically as good as new and has paid for itself more than twice over in one season. Netting a big percentage on our money, and what it has done for us we see no reason why it will not do for others.

If you have a piece of early potatoes that you wish to rush to market it is a great help. Often a few days' delay makes a great difference in price.

It is not a hard machine to handle, the pair of horses we worked on it are over 20 years old and only weigh about 2300 lbs. and handled it without much trouble in ordinary digging but if your land is wet and heavy it requires a stiffer team. A team weighing 2600 or 2800 lbs. ought to handle it with ease most anywhere.

When you can by riding a machine and driving a pair of horses, look back and see your potatoes rolling out of the ground high and dry about as fast as you could cultivate them, it gives you a very pleasant sensation to think that your potatoes are being dug so easily.

There ought to be at least one of these diggers in every community where potatoes are grown; it is a great labor saving machine.

We don't wish to exaggerate, but simply state what the O. K. Hallock Digger has done for us and believe this machine a good investment for potato growers in general. We are so well pleased with our digger that we have taken the agency and can quote a low cash price. Don't delay this matter until your potatoes are ready to dig, for these machines weigh over 600 lbs. and must be necessarily shipped by freight and railroad companies are not always prompt to deliver goods.

UNSOLICITED TESTIMONIALS.

Read them and see what people who have used the Diggers say about them. We have hundreds more on file. We only print a few.

LANCASTER, PA., OCT. 28, 1907.

A. B. FARQUHAR, Co., YORK, PA.

Gentlemen:—I enclose check which is in payment for potato digger. I would have sent you the money before but I got my check for my potato crop only yesterday. The machine was very satisfactory, handled all kinds of weeds, big and little, remarkably well. I do not believe we left two bushel of potatoes on seven acres of ground and there would not have been that many had it not been for the weeds. We feel that we could not farm potatoes now without the elevator digger. A number of my neighbors came to see it work and they all said it did the work fine.

Yours respectfully,

R. F. D. No. 5.

HENRY L. FRANZ.

LEBANON SPRINGS, N. Y., NOV. 5, 1907.

A. B. FARQUHAR Co., LTD., YORK, PA.

Gentlemen:—Enclosed please find certified check for the diggers. I thank you for extending my time a little. We have had a very unfavorable season in which to use the diggers, but they have given excellent satisfaction. The one I sold worked in a lot that was almost paved with stone and it was given as severe a test as a machine could have, and it was an unqualified success.

I confess I was somewhat discouraged over my first test that I gave it, but I know now that all the fault lay in my ignorance of the machine, and now I am enthusiastic. I shall undoubtedly do a good business for this territory next season.

Yours very truly,

Geo. A. Temple.

BELMAR, N. J., OCT. 1, 1907.

A. B. FARQUHAR Co., LTD., YORK, PENN'A.

Gentlemen:—I have used your Hallock O. K. Elevator Potato Digger for which Mr. Gunther is agent and think it a first-class machine. I used two horses through very heavy clay ground.

Yours respectfully,

CHAS. WHITE.

TOANO, VA., JULY 8, 1907.

MESSRS. D. Y. HALLOCK & SONS, YORK, PA.

Dear Sirs:—Doubtless you think strange of my waiting so long to make report on potato digger. However we put the machine to work and it handles them to perfection. I am satisfied with the machine. It is doing fine work. Expect to get some orders now in shortly.

Yours truly,

E. S. MEANLEY.

HARRINGTON, DEL., OCT. 24, 1907.

A. B. FARQUHAR Co., LTD., YORK, PA.

Gentlemen:—I have tried your digger this week and it gives perfect satisfaction. It gets the potatoes all out and throws them on top of the ground. The O. K. Elevator Potato Digger is O. K. The boys are pleased with it. I will close.

Yours respectfully,

R. F. D. No. 32.

JOHN W. DAWSON.

HAWLEY, MASS., NOV. 21, 1907.

A. B. FARQUHAR Co., LTD., YORK, PA.

Gentlemen:—The potato digger worked fine and I am much pleased with it. I had five acres of potatoes and they yielded 975 bushels of marketable potatoes. They are a fine lot of potatoes of the Green Mountain variety. Next year I shall plant ten acres anyway and perhaps more. I have seen the . . . and . . . diggers work and am convinced mine is far superior. That is a heavy clumsy complicated affair and I would not take one as a gift. While the O. K. is compact, simple, light and durable in every way. I hope to influence some of my neighbors to buy the O. K. I have a pair of light weight horses not over 2100 and they drove it all right, but of course it was a little heavy for them. Shall have a new pair next year. I shall be glad to recommend the O. K. to any one you may refer to me.

Yours truly,

H. C. HARMON.

GURNEE, ILL., OCT. 17, 1907.

D. Y. HALLOCK & SONS, YORK, PA.

Gentlemen:—I have tried the 1907 O. K. potato digger to my entire satisfaction. I am only too glad to keep and pay for such a perfect working digger as that has proven itself to be. I will pay for it according to agreement; within 30 days after one day's trial, which will be right around the 10th of November. What are your terms to agents? I would like the agency for this vicinity if your terms are liberal enough, as I think I might sell some. Thanking you for the confidence placed in me and allow me to remain,

Faithfully yours,

R. F. D. No. 1.

E. M. METCALF.

HIRAM, O., OCT. 21, 1907.

D. Y. HALLOCK & SONS, YORK, PA.

Gentlemen:—Enclosed find money order to pay for potato digger. The digger gives the best of satisfaction. It works much better than we expected it would or could.

Yours respectfully,

R. F. D.

H. C. RYDER.

HERBST, IND., OCT. 24, 1907.

D. Y. HALLOCK & SONS, YORK, PA.

Gentlemen:—Enclosed you will find my check less the freight for payment in full for potato digger that I ordered last August. I am well pleased the way the digger works. It does the work in every respect, just as well as the . . . and is from one to two horse lighter draught. If I can do you any good in the future will be glad to do so.

Very truly yours,

JIM BABB.

SOUTH HAVEN, MICH., OCT. 27, 1907.

D. Y. HALLOCK & SONS, YORK, PA.

Gentlemen:—Enclosed please find draft for O. K. Potato Digger you shipped to me Aug. 30th. I have my crop dug. It worked fine, all that I could expect. I dug 90 bushels in one hour with one span of horses. Dug four acres in less than nine hours.

Yours respectfully,

MR. I. K. BORDEN.

DETROIT HARBOR, WIS., NOV. 1, 1907.

A. B. FARQUHAR Co., LTD.

Gentlemen:—The potato digger arrived just in the nick of time, was greatly worried over its delay, as there was many neighbors depending on it. I gave it ten days hard run, was persuaded to put it in veritable stone heaps, dug in one and one-half inches frozen crust with one team though I often put two teams on in a good sized patch. I broke the pole and twisted the fastenings but no fault of yours nor the digger. It gave the best of satisfaction everywhere and I prize it above all other machinery on the farm. Enclosed you will find check for balance.

Yours respectfully,

GUS JACOBSON.

ELGIN, OKLA., JUNE 27, 1907.

D. Y. HALLOCK & SONS, YORK, PA.

Sirs:—I enclose check in payment of Potato Digger. We started digger 17th. It has dug 15 acres. It does very well. It is heavier draft than I expected, however it does good work, which is the main thing. There will be several diggers sold here next spring.

Yours truly,

R. F. D. No. 1.

T. M. JEFFORDS.

SPOKANE, WASH., OCT. 23, 1907.

D. Y. HALLOCK & SONS, YORK, PA.

Gentlemen:—O. K. digger received and tested. It has given general satisfaction to myself and others who have investigated its work and action while at work. Those who had knowledge of the work of other machines claim this does better work than two of the most prominent machines now on the market. Personally I like the machine for the ease in which two horses can handle it. My team of two 1050 pound horses handle it O. K. The machine sent me was a single wheel one. I have tried it on level, semi ridged and ridged; potatoes clean, weedy, dry vines, green vines, straight rows, crooked rows; level land, hillside land, etc., etc.

Yours respectfully,

R. F. D. No. 7.

MR. C. T. JOHNSON.

SULPHUR SPRINGS, OREGON, NOV. 2, 1907.

D. Y. HALLOCK & SONS.

Dear Sirs:—I received the O. K. elevator digger the 3d of October, 1907, and I am well satisfied with the machine in every way. The only fault I can find is it works so well that all of my neighbors want to use it. I let a few of them use it for an advertisement this fall as I could not order any more as it was so late when I got mine. Please send me agency.

Yours truly,

J. R. DAILEY.

MONTROSE, COL., OCT. 16, 1907.

MESSRS. D. Y. HALLOCK & SONS, YORK, PA.

Gentlemen:—I gave the O. K. potato digger a fair trial and find it as the name implies:—all O. K. I find it as good a machine as I ever used and I have used the best machines that are manufactured.

Yours very truly,

F. B. HUBBARD.

A. B. FARQUHAR COMPANY, Ltd., YORK, PA.
